World Health Organization pandemic treaty: The New World Order is here!

With help from Joe Biden, the World Health Organization (WHO) is fast-tracking a global pandemic treaty that will give the U.N. the control it needs over the world's population to create a New World Order.

If you think the last two years of COVID tyranny have been bad, wait until Bill Gates and the global elitists at the World Health Organization and the United Nations are calling the shots after Joe Biden surrenders American sovereignty to the New World Order (via Liberty Council):

> The ultimate control over America's health care and its national sovereignty will be put up for a vote next week at a meeting of the World Health Organization's (WHO) governing legislative body, the World Health Assembly (WHA).
>
> On May 22-28, 2022, the 75th World Health Assembly will convene at the United Nations (U.N.) headquarters in Geneva, Switzerland, with delegates from 194 nations, to **vote on the Biden administration's amendments that will hand over national sovereignty and authority to the WHO**.
>
> On March 31, 2020, the U.S. contribution to the WHO was $115.6 million, followed by China at approximately one-half that amount, followed by Japan, Germany, the United Kingdom, France, Italy, and Brazil. Then in July 2020, President Donald Trump notified Congress and the U.N. that the United States was formally withdrawing from the WHO. **Bill Gates quickly increased his contribution from the Bill & Melinda Gates Foundation to $250 million. Gates is the second largest contributor to the WHO, only behind the United States**. The WHO was highly instrumental during COVID-19 in promoting the agenda of the Chinese Communist Party which has caused millions of deaths from COVID-19, not to mention the collateral damage from prolonged lockdowns, quarantines, and mask mandates.
>
> "Covid-19: Make It the Last Pandemic," a report published by the United Nations in May 2021, claims that **the "pandemic" would have been prevented if the WHO had been given more global authority**. (Emphasis mine)

The new revised WHO agreement aims to give Bill Gates and Gavi de facto pandemic and surveillance governing power over all 198 member states in the event of the next pandemic. If that doesn't frighten you I don't know what will.

Joe Biden's amendments were made on January 18, 2022, when officials from the Biden administration quietly sent them without an official statement or a single press conference. The proposed amendments give Tedros Adhanom Ghebreyesus and future World Health Organization Director-Generals unrestricted power to define and implement their interventions and to declare "public health emergencies" at will.

As pointed out by The Liberty Council, **the term "public health emergency" is ill-defined and could include not only a viral pandemic, but also gun violence, climate change, digital passports or any other issue that arguably may affect "public health."** The proposed amendments would grant WHO such power. (Emphasis mine)

Just a reminder about Joe Biden's intentions; it was only a few weeks ago that he called on America to lead in creating a "New World Order" in order to "unite the world."

Before mask mandates, vaccine mandates, vaccine passport mandates, and every other form of COVID tyranny we've experienced under the "new normal," I wrote an article suggesting that coronavirus hysteria could lead to the creation of the New World Order, and I was immediately called an "alt-right conspiracy nut" and "tinfoil-hat wearing shack job."

Unfortunately for my accusers, more evidence of a COVID-induced New World Order has come to light during the past two years of "two weeks to flatten the curve."

We learned in August 2020 that the World Economic Forum (WEF) had a plan to overhaul global government known as "The Great Reset." In an opinion piece written at the time by German professor of economics and Mises Wire contributor Antony P. Mueller, we learned how nefarious globalists had long planned to use something like COVID to launch the New World Order, taking us from lockdowns to "The Great Reset."

In a September 2020 virtual meeting, the WEF launched The Great Reset initiative "to improve the state of the world" by urging global stakeholders to cooperate in simultaneously managing the direct consequences of the COVID crisis.

Shortly after the November 2020 election, Joe Biden and John Kerry made a commitment to "The Great Reset," saying that it "will happen with greater speed and with greater intensity than a lot of people might imagine." They also blamed the free market for the mess created by COVID tyranny:

> "The answer to your question is, no, you're not expecting too much [from President Biden]. And yes, **[the Great Reset] will happen. And I think it will happen with greater speed and with greater intensity than a lot of people might imagine**.
>
> **[The need for the Great Reset is] a reflection of the inability of democratic governments in many parts of the world to deliver**. And I just have to put it bluntly. [America is] certainly the primary exhibit. **[America is] exhibit number one**." (Emphasis mine)

Any doubts about the New World Order ambitions of the United Nations (UN) and the World Economic Forum (WEF) were eliminated earlier this month when it was announced that UN General Secretary Antonio Guterres and Klaus Schwab had signed an agreement to accelerate Agenda 2030.

The World Health Organization's global pandemic treaty is a perfect fit for this new partnership and Joe Biden's plan to surrender American sovereignty:

> Amid growing concerns over the new omicron COVID-19 variant, **the Biden administration is supporting efforts by the World Health Organization to establish a new international agreement** on future pandemic preparedness and response.
>
> "The United States is committed to working with member states to take forward the recent recommendations of the working group on preparedness and response. **That includes developing a new WHO convention agreement or other international instrument and making agreements** to improve the effectiveness and agility of international health regulations," White House press secretary Jen Psaki said Tuesday to VOA aboard Air Force One.
>
> The U.S. had initially opposed the inclusion of language that would have made the so-called pandemic treaty — proposed by about two dozen world leaders in March — legally binding. But on Sunday, **the administration supported a draft resolution that is being negotiated at a three-day virtual special session of the WHO governing body**, the World Health Assembly. (Emphasis mine)

World Health Organization Director-general Dr. Tedros Adhanom Ghebreyesus has been cheerleading the global pandemic treaty from the beginning, calling it "a once-in-a-generation opportunity to strengthen the global health architecture to protect and promote the well-being of all people."

U.N. Secretary-General Antonio Guterres is already pushing for a global COVID vaccination plan once the treaty is approved (via Business Standard):

> UN Secretary General, Antonio Guterres has said that "the only way out of a global pandemic and out of this unjust and immoral situation is through a **global vaccination campaign**."
>
> He added that the UN stands behind the vaccination strategy set out by the World Health Organization, with the goal of getting vaccines into the arms of 40 per cent of people in all countries by the end of 2021, and 70 per cent by the middle of 2022.
>
> Climate change, inequality, and the development of new technologies were also addressed by the UN Chief, who **called for "a quantum leap in unity and solidarity" to address these global problems**. (emphasis mine)
